

Running Contract Details	
Equipment Name	POWER LAUNDRY MACHINES
Running Contract Valid Till	09-12-2023
Tender Ref No	KMSCL/EP/T410/294/2021
Tendered Quantity	50
Supplier Name	M/s Kerala Surgical Equipment Co
GST No	32AACFK7295D1ZG
Installation & Delivery Period	8 Week(s)
Up-time / PM vist	95% & 2 Visits per year
Warranty period	3 Years

Other terms & conditions

1. The supplier shall execute an agreement with the purchaser as per tender conditions (agreement format is given in the tender document).
2. The supplier shall submit performance security amounting to 5.00% of the value of the supply order.
3. The labour & comprehensive charges of equipment after the completion of warranty period is finalized by KMSCL as mentioned above.
4. Since discount rate is not applicable for equipment under Running Contract of KMSCL, purchase/supply order can be issued directly to supplier at the given rate with tax & other charges (exclusive of KMSCL service charges).
5. If purchase/supply order is issued directly to the supplier, KMSCL service charge need not be paid. But the copy of the said order may be forwarded to KMSCL for information.

Technical Specification

Equipment :Power Laundry - Washer Extractor 30 Kg

1. Should have a capacity of 30 kgs dry cloth.
2. Cylinder volume should be at least 250 litres.
3. Should be electrically heated.
4. Machine should be suitable for all known washes.
5. Should have perforated high quality stainless steel drum and water inlet connection.
6. Inner cylinder, outer casing, side and front panels all in stainless steel grade SS304.
7. Should have Automatic features like auto timed, auto reverse.
8. All machines should have big glass window at the door and water flow meter, timer etc.
9. Should have a spin speed of at least 700 RPM.
10. The G-force should be at least 300.
11. Should be fully automatic and have microprocessor based technology.
12. If compressors are required rate shall be offered in BOQ

Equipment :Power Laundry - Washer Extractor 60 Kg

1. Should have a capacity of at least 60 kgs dry cloth.
2. Cylinder volume should be at least 500 litres.
3. Should be electrically heated.
4. Machine should be suitable for all known washes.
5. Should have perforated high quality stainless steel drum and water inlet connection.
6. Inner cylinder, outer casing, side and front panels all in stainless steel grade SS304.
7. Should have Automatic features like auto timed, auto reverse.
8. All machines should have big glass window at the door and water flow meter, timer etc.
9. Should have a spin speed of at least 700 RPM.
10. The G-force should be at least 300
11. Should be fully automatic and have microprocessor based technology.
12. If compressors are required rate shall be offered in BOQ

Equipment :Power Laundry - Tumble Drier 25 Kg

1. Should have a capacity of at least 25 kg, front loading
2. Should have electrical heating
3. Should have a thermally insulated steel chamber with a non-corrosive stainless steel.
4. Should have auto timing, auto reversal and auto temperature control.
5. Should have Cylinder Volume of at least : 500 liters
6. Should have a Heating coil of at least 18kw

Equipment :Power Laundry - Tumble Drier 50 Kg

1. Should have a capacity of at least 50 kg, front loading
2. Should have electrical heating
3. Should have a thermally insulated steel chamber with a non-corrosive stainless steel.
4. Should have auto timing, auto reversal and auto temperature control.
5. Should have Cylinder Volume of at least : 1000 liters
6. Should have a Heating coil of at least 24kw

Equipment :Suitable Capacity Air Compressor

1. If any of the above equipment requires a compressor, the cost shall be included and shall be supplied along with the machines. The connection from the compressor to the respective machines shall be provided by the tenderer and the cost for the same also to be included. The suitable capacity of compressor offered shall be mentioned in the Offer form.

Equipment :Power Laundry - Flat Work Ironer (Calendering Machine)

1. Should be single roller and roller heater type
2. Should have electrical heating, 24KW
3. Feed size shall be at least 1500 X 400mm
4. Stainless Steel roller, Gear driven or chain driven, Variable speed, manually adjustable
5. Should have finger guard
6. Should have built in electric control panel.

Equipment :Vaccum Ironing Table

1. Should have press Size at least 1200 x 750mm
2. Should be made of silicon foam and heat proof cloth.
3. Should be powder coated with trays, side iron stand with silicon iron pad.
4. Should have foot pedal switch to control suction.
5. The vacuum board should be uniformly perforated and covered with a stainless steel mesh for perfect and uniform steam ironing control.
6. Should be supplied with suitable capacity boiler for the vacuum ironing press.

Equipment :Power Laundry - Washroom Trolley

Formed out of stainless steel tubes and bars, welded structure, Electro polished, foldable front, fitted with four swiveling type ball bearing wheels. Approximate dimension 850 x 650 x 800 (ht) mm

Equipment :Power Laundry - Dry Linen Trolley

Formed out of stainless steel tubes and bars, welded structure, Electro polished, foldable front, fitted with four swiveling type ball bearing wheels. Approximate dimension 850 x 650 x 1650 (ht) mm

Equipment :Power Laundry - Shelf Trolley

Formed out of stainless steel tubes and bars, welded structure, Electro polished, fitted with three shelves, fitted with four swiveling type ball bearing wheels. Approximate dimension 850 x 650 x 1650 (ht) mm

Equipment :Power Laundry - Shelf Big

- a. Formed out of stainless steel tubes and bars, welded structure, Electro polished, fitted with five shelves. Approximate dimension 6ft x 1.75ft x 6ft (ht)

Equipment :Power Laundry - Shelf Small

- a. Formed out of stainless steel tubes and bars, welded structure, Electro polished, fitted with five shelves. Approximate dimension 4ft x 1.75ft x 6ft (ht)
